

Dear Colleagues,

First of all, I would like to express my deep appreciation for your participation in the JSGT-2010. This year, there were more than four hundred participants including distinguished scientists from the United States and Asia. Owing to everyone's passion and dedication to persevere and innovate for new research and technologies, we have achieved to learn so many issues through this meeting that could lead us to a breakthrough for future gene therapy. Once again thank you, and see you in Fukuoka, 2011.

Sincerely yours,  
Keiya OZAWA, M.D., Ph.D.  
President of the 16th JSGT-2010

*May the year 2010 be a wonderful and peaceful year for everyone!*
